

## Net Zero Statement

At LHM Healthcare, we recognize the critical importance of humanity adapting to long-term changes in the earth's climate, reducing pollution and building a sustainable future for generations to come. As part of our ongoing dedication to environmental responsibility, we are proud to publicly commit to reduce our carbon emissions within the timeframe of our contract with NHSE as well as working towards assisting national efforts towards achieving Net Zero carbon emissions by 2050.

We are focused on implementing achievable solutions, supporting conservation efforts, improving our energy efficiency, and, where possible, transitioning to renewable energy sources. Our approach includes:

- **Reducing Emissions:** We are committed to reducing greenhouse gas emissions across all areas of our operations through a combination of process optimization, energy efficiency and altered travel arrangements.
- **Sustainable Innovation:** We will continue to support and adopt sustainable technologies and practices that promote environmental stewardship, reduce waste, and minimize our impact on the environment.
- **Collaboration and Transparency:** We recognize that achieving Net Zero is a collective effort. We will work with partners, stakeholders, and experts to ensure we can make a meaningful contribution to the national efforts. We will report on our goals, actions, and outcomes, ensuring that our work towards Net Zero is meaningful.
- **Supporting the efforts of others:** We recognise the efforts of charities and other organisations in protecting and conserving our environment. We will support the efforts of those organisations whose conservation and environmental work most closely aligns with the company's ethos.

We understand that the road ahead will require dedication, innovation, and resilience. By committing to Net Zero by 2050, we are not only contributing to global efforts to adapt to the changing climate but also ensuring a healthier, more sustainable world for future generations.

LHM Healthcare Ltd, working together with our host hospitals at James Paget University Hospital and Whipps Cross University Hospital commit is committed to achieving net zero emissions Scopes 1,2 and 3. The commitment is made on 24<sup>th</sup> January 2025 by Board members Kimberley Adams (Managing Director) and Philip Sayers (Founder and Director).
